

# AIREYS

ESTD *Pub* 1904

## OUR FOOD, SUSTAINABILITY AND DOING OUR BIT.

We believe a great menu should change with the seasons. Much of our produce is gathered from local and regional farms, to maintain freshness and reduce food miles.

We do our best to support sustainable foods and free range meats and poultry from farmers who use ethical farming practices.

We are constantly striving towards renewable, sustainable, and ethical. We aim to reduce plastic and disposables, support fair wages, and to do what we can for our planet.

This is how we choose to roll.

### AIREYS COMMUNITY GARDEN

Aireys Community Garden take our compostable wastage several times a week turning our waste into fertiliser for their gardens.

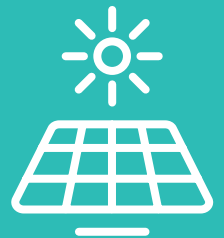

### NO STRAWS

We are proud to be a strawless Pub, to contribute to minimising unnecessary plastic entering our waterways and landfills.

### SOLAR POWERED

Since January 2018 we are proud to be running a substantial amount of our pub and brewery through our own solar system on the Pub roof.

### HORSE FEED

All our spent grain from the Brewery is taken 2kms away to feed the horses at Blazing Saddles.

### DRINK A PALE. SAVE A WHALE

10% of Moby Pale Ale profits go to Sea Sheppard to conserve our oceans. We also have strong relationships with our seafood suppliers to hunt out sustainable and fresh seafood.

**RSPCA** 

### CHOOSE WISELY

We support CHOOSE WISELY, our free range eggs are RSPCA approved.
